

VALUE!!!

KEEP YOUR Boat
LOOKING NEW FOR YEARS TO COME AND
ADD VALUE AT TRADE-IN TIME...

by protecting your boat with the **MAXXGARD** interior and exterior protection systems. Appearance and overall physical condition at trade-in or resale time can have a major impact on the ultimate value of your boat when you are ready to trade up or sell. Why not minimize depreciation and maximize value with **MAXXGARD** protective coatings.

The **MAXXGARD** protective products are so effective they are warranted and backed by a trusted, nationwide insurance company to provide additional financial security for you the consumer, and your dealer.

MAXXGARD protection products are guaranteed to protect the paint/gel coat, fabric and leather/vinyl areas of your boat as stipulated in the **MAXXGARD** warranties. A convenient toll free number and nationwide claim service is available should a repair be necessary. **MAXXGARD** warranties are fully transferable to a second owner.

MAXXGARD products are professionally applied and are available exclusively at authorized dealerships.

ADD VALUE TO YOUR BOAT

ENVIRONMENTAL

PAINT / GEL COAT PROTECTION SYSTEM

Top of the line Paint / Gel Coat Protection utilizes professional multi-step installation process to insure proper application and maximum protection from the potentially disastrous effects of the environment on the painted / gel coated surfaces of your boat.

Professionally applied protection against damage caused by weather induced fading, weather induced chalking, weather induced loss of gloss, acid rain, tree sap, hard water spots, ocean spray, de-icing agents/road salt, paint overspray, brake and rail dust, bird waste, or insect damage. *

FABRIC / CARPET

PROTECTION SYSTEM

Surrounds and seals each individual fiber of your boat's carpet and fabric upholstery with an invisible protective barrier so that most stains will not set. Unique formula preserves showroom look, does not alter original color or texture, allows fabric to breathe and retain softness, while providing an extra "layer of protection" against surface dirt and staining.

Professionally applied protection against fast food, beverage stains, baby oil, lubricating oil, bleaches, dyes, inks, fading, discoloration, sun's UV rays, mold, mildew, chewing gum, crayons, lipstick and makeup, blood and bodily fluids (including those caused by pets). *

LEATHER / VINYL

PROTECTION SYSTEM

Maintains showroom richness, beauty and integrity of interior leather and vinyl trim, seats, and dashboard areas in your boat. Deep penetration and advanced conditioning formulas preserve and protect leather and vinyl from within for years to come by sealing in and enhancing properties of original protective lubricants contained in material at time of manufacture. Leather and vinyl stays soft and supple while being perpetually protected from the internal and external ravages of sunlight, dryness and temperature extremes of heat and cold.

Professionally applied protection against fast food, beverage stains, baby oil, lubricating oil, bleaches, dyes, inks, fading, discoloration, cracking of the dash, sun's UV rays, mold, mildew, chewing gum, crayons, lipstick and makeup, blood and bodily fluids (including those caused by pets). *
